### THREAT LEVEL SUMMARY

| Domain            | Level        | Trend         |
|-------------------|--------------|---------------|
| Physical Security | MODERATE     | Watch         |
| Civil Unrest      | MODERATE     | Elevated      |
| Cyber / Fraud     | MODERATE     | Elevated      |
| Weather           | MODERATE     | Deteriorating |
| Travel / Mobility | LOW-MODERATE | Watch         |

**BOTTOM LINE:** Threat posture is elevated above yesterday. Two significant new drivers: (1) Karmelo Anthony murder trial commenced today in Collin County with protest activity anticipated and national media focus; (2) a FIFA World Cup warmup match — Saudi Arabia's national team — at Q2 Stadium (1.5 mi N) this evening with an active FAA Temporary Flight Restriction (TFR) over the stadium and surrounding area including nearby hotels. Bar Peached fire officially ruled refrigerator malfunction — arson concern resolved. ICE protest activity continues in the national landscape. Afternoon/evening storm threat is real today — prepare outdoor operations.

## 2B — Civil Unrest / Protest Activity

Sources: [Fox News — Karmelo Anthony Trial](#), [NJ ICE Facility Arrests — June 2, 2026](#)

Karmelo Anthony Murder Trial — Protest Cloud (Collin County (Frisco), TX — ~3 hrs N; national media focus) — Jury selection began Monday for the Karmelo Anthony murder trial — the high-profile April 2025 stabbing of Austin Metcalf at a Frisco track meet. Trial is proceeding 'under a protest cloud' per Fox News. The case has significant racial and social dimensions with active protest communities. While proceedings are in Frisco, national media coverage and social media activism may drive sympathy protests in Austin. Monitor Austin social media and activist accounts for local solidarity actions.

ICE / Immigration Protests — Elevated National Climate (National / potential Austin Capitol area) — NJ ICE facility arrests made overnight (June 2), keeping ICE enforcement national news fresh. Austin local protest groups remain active following the SB4 court ruling. No specific Austin protest scheduled but follow-on activity remains likely near the Capitol corridor this week.

## 2C — National Security Context

- Iran-US tensions remain active: overnight U.S. CENTCOM strikes on Iranian military assets, Iran suspended nuclear talks. Iranian President offered to resign amid IRGC power vacuum following the deaths of senior leadership. Strait of Hormuz blockade ongoing. Elevated geopolitical tension globally — potential for domestic sympathy protests or lone-actor response.
- U.S. designated two Brazilian criminal organizations (Comando Vermelho, Primeiro Comando da Capital) as Specially Designated Global Terrorists effective May 28 / June 5. Transnational criminal threat landscape expanding.
- DNI 2026 ATA: soft targets (hotels, entertainment venues, houses of worship) remain top domestic threat category. Lone-actor/DVE threat elevated.
- FIFA World Cup 2026 kicks off in the U.S. in coming weeks — Austin's Q2 Stadium is a host venue. Geopolitical tensions (US-Iran, broader Middle East) increase the threat profile for events involving national teams from conflict-adjacent countries. Saudi Arabia match tonight falls in this context.
