CAPITAL MURDER RAMPAGE — AUSTIN/SAN ANTONIO — SUSPECT IN CUSTODY	Multiple sites, Austin and San Antonio metro area	Suspect is in custody — no active threat to property or downtown. Incident	Location	Relevance
US–IRAN SWITZERLAND TALKS — ROUND 1 CONCLUDED, 60-DAY ROADMAP AGREED	Bürgenstock, Switzerland (remote — national context)	No direct operational threat to Austin or property. Guest mix may include diplomatically-connected business travelers given geopolitical activity.

AUSTIN ENERGY PLANNED POWER OUTAGE — DOWNTOWN / S. LADY BIRD LAKE: Austin Energy executed a planned 2-hour outage beginning at 3:00 AM June 22 as part of the Waller Beach Duct Bank Upgrade — installation of 1,000 ft of underground power lines connecting the new Rainey Street substation to the downtown grid. Outage was scheduled to restore by ~5:00 AM. Brazos Street excavation continues on weekdays 7 AM–7 PM.

CAPITAL MURDER RAMPAGE — AUSTIN/SAN ANTONIO — SUSPECT IN CUSTODY: Shane James, 34, charged with capital murder following a daylong killing spree on approximately June 17–18 spanning Austin and San Antonio. Mediators Qatar and Pakistan announced both sides agreed to 'a roadmap to achieve a final agreement within 60 days' and will establish a communication line for the Strait of Hormuz. Next round: Washington DC, approximately June 23–25.

2B — Civil Unrest / Protest Activity

Sources: [Fox News — Karmelo Anthony Trial](#), [NJ ICE Facility Arrests — June 20, 2026](#)

No Active Civil Unrest — Downtown Austin (Downtown Austin) — No protest or demonstration activity reported or anticipated for June 22 in downtown Austin. Juneteenth weekend events concluded. PRIDE festival (June 20) has wrapped. Monitor federal building perimeter (US Courthouse, Capitol) if US–Iran talks generate domestic reaction.

2C — National Security Context

- US–Iran 60-day diplomatic sprint underway — Round 1 concluded in Switzerland June 22; technical talks ongoing. Next round in Washington DC approximately June 23–25. Key issues: nuclear enrichment limits, sanctions relief, Strait of Hormuz. Global oil markets and energy sector remain sensitive to negotiation progress or breakdown.
- Shane James capital murder case (Austin/San Antonio, 6 dead) underscores lone-actor rapid-escalation threat pattern — suspect covered multiple sites across two cities in a single day before apprehension. Relevant for SOC awareness on behavioral detection and rapid-response coordination.
- Texas summer heat pattern 2026: multiple Extreme Heat Warnings already issued in June (Jun 17–18: heat index 113–118°F). This week's event (100–110°F heat index) is moderate by 2026 season standards but still operationally significant.
